TasWater details			
TasWater Reference No.	TWDA 2018/01593-LCC	Date of response	2/10/2018
TasWater Contact	David Boyle	Phone No.	6345 6323
Response issued to			
Council name	LAUNCESTON CITY COUNCIL		
Contact details	planning.admin@launceston.tas.gov.au		
Development details			
Address	8a CARNARVON ST, EAST LANCESTON	Property ID (PID)	6591905
Description of development	New dwelling		
Schedule of drawings/documents			
	Prepared by	Drawing/document No.	Revision No.
	Adams Building Design	060218 3/11	25/02/2018
Conditions			
56W CONSENT			
<p>1. Prior to the issue of the Certificate for Certifiable Work (Building) and/or (Plumbing) by TasWater the applicant or landowner as the case may be must make application to TasWater pursuant to section 56W of the Water and Sewerage Industry Act 2008 for its consent in respect of that part of the development which is built within a TasWater easement or over or within two metres of TasWater infrastructure.</p> <p>The plans submitted with the application for the Certificate for Certifiable Work (Building) and/or (Plumbing) must show footings of proposed buildings located over or within 2.0m from TasWater pipes and must be designed by a suitably qualified person to adequately protect the integrity of TasWater's infrastructure, and to TasWater's satisfaction, be in accordance with AS3500 Part 2.2 Section 3.8 to ensure that no loads are transferred to TasWater's pipes. These plans must also include a cross sectional view through the footings which clearly shows;</p> <ol style="list-style-type: none"> Existing pipe depth and proposed finished surface levels over the pipe; The line of influence from the base of the footing must pass below the invert of the pipe and be clear of the pipe trench and; A note on the plan indicating how the pipe location and depth were ascertained. 			
DEVELOPMENT ASSESSMENT FEES			
<p>2. The applicant or landowner as the case may be, must pay a development assessment fee of \$211.63 to TasWater, as approved by the Economic Regulator and the fees will be indexed, until the date paid to TasWater.</p> <p>The payment is required within 30 days of the issue of an invoice by TasWater.</p>			

Advice

General

For information on TasWater development standards, please visit <http://www.taswater.com.au/Development/Development-Standards>

For application forms please visit <http://www.taswater.com.au/Development/Forms>

Service Locations

Please note that the developer is responsible for arranging to locate the existing TasWater infrastructure and clearly showing it on the drawings. Existing TasWater infrastructure may be located by a surveyor and/or a private contractor engaged at the developers cost to locate the infrastructure.

A copy of the GIS is included in email with this notice and should aid in updating of the documentation.

The location of this infrastructure as shown on the GIS is indicative only.

- A permit is required to work within TasWater's easements or in the vicinity of its infrastructure. Further information can be obtained from TasWater
- TasWater has listed a number of service providers who can provide asset detection and location services should you require it. Visit www.taswater.com.au/Development/Service-location for a list of companies
- TasWater will locate residential water stop taps free of charge
- Sewer drainage plans or Inspection Openings (IO) for residential properties are available from your local council.

Metering Vacant Lot

TasWater records indicate this property does not have a water meter installed on the connection to the TasWater water supply.

Prior to obtaining Building/Plumbing Approvals from council, the owner should make application to TasWater for the supply & installation of a water meter. TasWater will proceed to install a water meter on the water connection and forward an invoice for \$266.72.

NOTE: In accordance with the WATER AND SEWERAGE INDUSTRY ACT 2008 - SECT 56ZB A regulated entity may charge a person for the reasonable cost of –

(a) a meter; and

(b) installing a meter.

Advice to Planning Authority (Council) and developer on fire coverage

TasWater cannot provide a supply of water for the purposes of firefighting to the lots on the plan.

Advice to the Drainage Authority

The combined system is at capacity in this area. TasWater cannot accept additional flows of stormwater into this area within the combined system over those currently discharged.

The Drainage Authority will be required to either refuse or condition the development to ensure the current service standard of the combined system is not compromised.

TasWater have a small number of townships that are on Boil Water and Do Not Consume Alerts. Please visit <http://www.taswater.com.au/News/Outages---Alerts> for a current list of these areas.

Trade Waste

Prior to any Building and/or Plumbing work being undertaken, the applicant will need to make an application to TasWater for a Certificate for Certifiable Work (Building and/or Plumbing). The Certificate for Certifiable Work (Building and/or Plumbing) must accompany all documentation submitted to Council.

Documentation must include a floor and site plan with:
 Location of all pre-treatment devices i.e. Oil Water Separator;
 Schematic drawings and specification (including the size and type) of any proposed pre-treatment device and drainage design; and
 Location of an accessible sampling point in accordance with the TasWater Trade Waste Flow Meter and Sampling Specifications for sampling discharge.
 At the time of submitting the Certificate for Certifiable Work (Building and/or Plumbing) a Trade Waste Application form is also required.
 If the nature of the business changes or the business is sold, TasWater is required to be informed in order to review the pre-treatment assessment.
 The application forms are available at <http://www.taswater.com.au/Customers/Liquid-Trade-Waste/Commercial>.

Declaration

The drawings/documents and conditions stated above constitute TasWater’s Submission to Planning Authority Notice.
