For the avoidance of doubt, *Chief Executive Officer* means *General Manager* for the purposes of the *Local Government Act 1993 (Tas)* and all other legislation administered by or concerning Council.

Local Government (Meeting Procedures) Regulations 2015 - Regulation 31(1)

**8.1.1. Public Questions on Notice - Helen Tait - Launceston Municipality
Biodiversity Issues**

FILE NO: SF6381

AUTHOR: Anthea Rooney (Council and Committees Officer)

CHIEF EXECUTIVE OFFICER: Michael Stretton

QUESTIONS and RESPONSES:

The following question, asked at the Council Meeting on 21 September 2022 by Helen Tait, has been answered by Shane Eberhardt (General Manager Infrastructure and Assets Network).

Questions:

1. [Regarding biodiversity issues within the municipality and Queechy Lake] how can and how will the Council's staff and Councillors show authenticity in enacting due diligence in the matter of looking after the natural values and critical biodiversity of the urban areas of our municipality?

Response:

The City of Launceston continually invests in water quality in the Kings Meadows Rivulet catchment and has made formal commitments under its Stormwater System Management Plan, 2019. The most significant, and recent investment, has been the removal of illegal connections as part of the Tamar Estuary Health Action Plan.

The Sustainability Action Plan 2022-2030 (SAP) makes a number of commitments which relate to protection and enhancement of its valuable natural assets. Theme 5 of the SAP has a goal to value, protect and promote our natural capital, through:

1. *Increased understanding of our natural capital.*
2. *Protecting and improving our air, land, water and ecosystems.*
3. *Enhancing the resilience of natural systems to change.*
4. *Utilising our natural capital to increase our community resilience and liveability.*

The Council understands the significance of the Queechy Lake Reserve which is why a plan is currently being developed to remove woody weed incursions, primarily willows. The plan is being developed in conjunction with Birdlife Tasmania to ensure that there is no loss of important refugia for birdlife. This will likely be implemented over numerous years and include revegetation.

8.1.2. Public Questions Without Notice - Robin Smith - e-Scooter Report

FILE NO: SF6381

AUTHOR: Anthea Rooney (Council and Committees Officer)

CHIEF EXECUTIVE OFFICER: Michael Stretton

QUESTIONS and RESPONSES:

The following question, asked at the Council Meeting on 21 September 2022 by Robin Smith, has been answered by Louise Foster (General Manager Organisational Services Network).

Questions:

1. We are halfway through the e-Scooter trial and I was wondering if you could provide an update as things have gone a little bit quiet. More specifically could we be provided with some information on return e-scooter journeys (those into the City and then with a return on the same day)?

Response:

The Council continues to work closely with the e-scooter operators in an effort to learn about how the trial is developing and to provide input and feedback where required. Ride data obtained by one operator is provided below:

- 198,391 trips with 405,616kms travelled
- 24 reported incidents - an incident is defined as involving an injury or property damage and is one reported by the operators
- between eight and 20 local jobs created - full-time equivalent, seasonally dependent
- 40% of riders are over 35 years of age
- 36% of riders work in sales and related areas, management occupations or are healthcare practitioners
- 43% of trips are for entertainment
- 15% of trips are for commuting

The e-Scooter trial concludes in December 2022. At this point, trip data will be analysed to identify patterns of return journeys and commuting to key locations to assess the trial. A summary will be included in a report of the trial that will be publicly available in 2023 and there will also be an update provided in the State of the City report that will be publicly available within the coming weeks.
