

Essential Food Safety Training (interactive and on-line)

- Safe food is everyone's responsibility.
- As a manager/owner how do you know your staff have the skills and knowledge to keep food safe for your customer, protect your reputation and produce less waste.
- This course was designed to help you.
- We know a good manager wants staff who are informed, ask questions and have the skills and knowledge to keep food safe for your customer.
- *Staff can study at their own pace.*

The 'essential' course, includes training on;

- food safety,
- microbiological hazards,
- food poisoning (and how to prevent it) and
- the importance of personal hygiene.

Our courses range from 'essential', level 1, 2 and 3.

Essential is designed for all new and part time staff,
Level 1 is designed for full time staff,
Level 2 is designed for those working with high risk foods,
Level 3 is for the 'person in control of the business'.

- **First For Training (FFT)** is an Australian owned and operated company specialises in online training, CPD and workforce preparing/ strengthening.
