

Request to change wheelie bin size

Waste management charges are adjusted against your rates account according to the waste bin size requested. Pro rata charges apply, starting from the month following your request being received. The size of your recycling bin does not impact on the waste management charges included in your rates. New bin/s are normally delivered within 10 working days. Please see page two for the waste management charges.

A bin size change-over fee of \$40.00 per bin applies (plus an applicable pro-rata charge that will be calculated at the time of your application). A credit is applied for the months of July and August only for bin down-size applications. Waste wheelie bins are now available in two sizes 140L and 240L. Recycling wheelie bins are available in 240L size.
